

PLATEMASTER

Pipette 96- and 384- well plates ... FAST!

PLATEMASTER is an amazingly easy-to-use, compact and accurate solution for high throughput pipetting of 96- and 384-well microplates. Its compact and ergonomic design means it can be used anywhere and by anyone for fast, effortless and reproducible pipetting.

£7,500

with free tips to the value of £500

Save Time And Increase Your Productivity

With minimal setup you can fill 96- or 384- well plates in less than one minute by reducing the number of manipulations for filling a microplate.

Simplifies Sample Prep

PLATEMASTER requires no programming, no power and minimal training, so you can start pipetting right away.

Convenient For Any Microplate Application

Achieve accuracy and precision on the bench or under the hood.
